Annual report on the implementation of the Action Plan for 2021:	Action Plan 2021–2023 for the Implementation of the Employment Strategy of the Republic of Serbia 2021-2026
Institution responsible for coordination and reporting:	MINISTRY OF LABOUR, EMPLOYMENT, VETERAN AND SOCIAL AFFAIRS
The public policy document for which the Action Plan was defined:	Employment Strategy of the Republic of Serbia 2021–2026

Overall goal: Created stable and sustainable employment growth underpinned by knowledge and decent work Proposer of the document: MINISTRY OF LABOUR, EMPLOYMENT, VETERAN AND SOCIAL AFFAIRS

Indicator title	Baseline value and year	Target for 2021	Realized value in 2021	Note
Employment rate by age groups and sex (15+) (%)	49 (2019)	-	48,6	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15+) (47%)
Employment rate by age groups and sex (15+) Men (%)	56,6 (2019)	-	56,5	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15+) Men (54,6%)
Employment rate by age groups and sex (15+) Women (%)	41,9 (2019)	-	41,3	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15+) Women (39,8%)
Employment rate by age groups and sex (15-29) (%)	36,9 (2019)	-	40	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment rate by age groups and sex, (15-29) Men (%)	42,4 (2019)	-	46,5	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment rate by age groups and sex (15-29) Women (%)	31,1 (2019)	-	33,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment rate by age groups and sex (15-64) (%)	60,7 (2019)	-	62,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15-64) (59,1%)
Employment rate by age groups and sex (15-64) Men (%)	67,1 (2019)	-	69,3	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15-64) Men (65,8%)

Employment rate by age groups and sex, (15-64) Women (%)	54,3 (2019)	-	55,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Employment rate by age groups and sex (15-64) Women (52,4%)
Activity rate by age groups and sex, (15+) (%)	54,6 (2019)	-	54,7	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex, (15+) (52,9%)
Activity rate by age groups and sex, (15+) Men (%)	62,7 (2019)	-	62,9	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex, (15+) Men (61,1%)
Activity rate by age groups and sex, (15+) Women (%)	47,1 (2019)	-	47	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex, (15+) Women (45,2%)
Activity rate by age groups and sex, (15-29) (%)	47 (2019)	-	50	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Activity rate by age groups and sex, (15-29) Men (%)	53,6 (2019)	-	57,5	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Activity rate by age groups and sex, (15-29) Women (%)	40,1 (2019)	-	42,1	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Activity rate by age groups and sex, (15-64) (%)	68,1 (2019)	-	70,3	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex (15-64) (66,8%)
Activity rate by age groups and sex, (15-64) Men (%)	74,9 (2019)	-	77,5	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex (15-64) Men (74%)
Activity rate by age groups and sex, (15-64) Women (%)	61,3 (2019)	-	63	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Activity rate by age groups and sex (15-64) Women (59,7%)

Unemployment rate by age groups and sex, (15+) (%)	10,4 (2019)	-	11	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15+) (11,2%)
Unemployment rate by age groups and sex, (15+) Men (%)	9,8 (2019)	-	10,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15+) Men (10,6%)
Unemployment rate by age groups and sex, (15+) Women (%)	11,1 (2019)	-	12,1	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15+) Women (12%)
Unemployment rate by age groups and sex, (15-29) (%)	21,5 (2019)	-	20	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Unemployment rate by age groups and sex, (15-29) Men (%)	20,8 (2019)	-	19,1	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Unemployment rate by age groups and sex, (15-29) Women (%)	22,5 (2019)	-	21,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Unemployment rate by age groups and sex, (15-64) (%)	10,9 (2019)	-	10,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15-64) (11,6%)
Unemployment rate by age groups and sex, (15-64) Men (%)	10,4 (2019)	-	9,4	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15-64) Men (11,1%)
Unemployment rate by age groups and sex, (15-64) Women (%)	11,5 (2019)	-	11,2	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP. RSO revised the data in accordance with the new methodology, so in 2019: Unemployment rate by age groups and sex (15-64) Women (12,2%)
Share of vulnerable employment, (15+) (%)	24,3 (2019)	-	19,6	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.

Objective 1: Growth of high-quality employment achieved through cross-sectoral measures aimed to enhance labour supply and demand Main institution: MINISTRY OF LABOUR, EMPLOYMENT, VETERAN AND SOCIAL AFFAIRS

Indicator title	Baseline value and year	Target for 2021	Realized value in 2021	Note
Registered employment (Number)	2.173.135 (2019)	2.260.930	2.273.591	
Informal employment, (15+) (%)	529.200 (2019)	487.100	375.500	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment by type of work, open-ended (%)	77,2 (2019)	76,5	59,4	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment by type of work, fixed term (%)	19,5 (2019)	20,9	14,8	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
Employment by type of work, Seasonal and casual work (%)	3,3 (2019)	2,6	2,8	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.
In-work at-risk-of-poverty rate (%)	9,2 (2019)	7,6	7,8	The given data is for 2020. Data for 2021 will be available after October 22, 2022.

Measure 1.1: Improve the conditions for the development of a high-quality labour force

Main institution: MINISTRY OF LABOUR, EMPLOYMENT, VETERAN AND SOCIAL AFFAIRS / MINISTRY OF EDUCATION, SCIENCE AND TECHNOLOGICAL DEVELOPMENT

Indicator title	Baseline value and year	Target for 2021	Realized value in 2021	Note	
Students enrolled in the first year in the dual education system as a proportion of total number of students enrolled in the first year of vocational secondary education (%)	5,3 (2019)	5,3	5,16		
Share of participation of adults (25-64) in formal and non-formal education and training (%)	4,2 (2019)	4,7	4,8	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.	
Share of participation of youth (15-24) in formal and non-formal education and training (%)	66,9 (2019)	67,1	64,4	Due to the change in the LFS methodology in 2021, the data is not comparable with the data for 2019 given in AP.	
Approved adult education activities conducted by NFESP (non-formal education, CGC, PLR and the like) (Number)	250 (2020)	50	163	151 programs for non-formal education activities, two (2) programs for CGC activities and 10 programs for PLR activities were accredited.	
Coverage of persons who received CGC services under accredited CGC programmes (Number)	0 (2019)	50	-	Bearing in mind that the accreditation of the CGC program was realized at the end of 2021, there were no participants during the reporting period.	
Adopted occupational standards (Number)	0 (2020)	0	-		
Improved regulatory framework for the NQFS system and the area of adult education (0 - no, 1- yes)	0 (2020)	1	1	The Rulebook on the detailed conditions regarding the program, personnel, space, equipment, and teaching tools for acquiring the status of PROAE (Publicly Recognised Adult Education Organiser) was adopted.	

Activity title	Deadline -> New deadline	Responsible institution	Status	Realization of funds (%)	Explanation of the progress	Reasons for deviation and measures taken	Future steps for implementation
1.1.1: Further development of the dual education system	2023	MoESTD	In progress	19%	A methodology was developed for the development of teaching and learning plans and programs for dual educational profiles. The realization of the conditions for the functioning of the training center at the Air Force Academy is in progress. Promotional activities of the dual model of education, implementation of the dual model of studies in higher education and NQF of Serbia were carried out through the organization of conferences and round tables, recording of promotional videos, printing of promotional material, etc. Serbian Association of Employers (SAE) took an active part in the promotion of the dual system of education. An initiative was launched, which was adopted at the session of the Social and Economic Council, on the comprehensive reform of the education system, including the further development of dual education. As part of the Project "Dialogue on youth employment, initiative and dual education" - DECIDE, in six (6) secondary vocational schools (Subotica, Kragujevac, Niš, Obrenovac, Vlasotince and Zaječar), quality improvement in the implementation of dual education was supported through: Professional trainings for directors and teachers; Pedagogical and didactic trainings for instructors; Equipping school workshops with machines and equipment; Improvement of local dialogue for the purpose of better employability and in accordance with the development of the economy; Expertise at the level of umbrella policies.		This activity is carried out continuously.

	T		Ι.		B 1 B 2 B 3		
1.1.2: Accreditation of	2023	MoESTD	In progress	-	During 2021, 47 institutions (6		This activity is
NFESPs for: provision of					secondary vocational schools and		carried out
CGC services, PLR, non-					41 other organizations) accredited		continuously.
formal education etc.					151 non-formal education programs,		
					so that, at the end of 2021, a total of		
					108 institutions (21 schools and 87		
					other organizations) have PROAE		
					status for the realization of 433		
					accredited non-formal education		
					programs. When it comes to CGC		
					activities, one institution accredited		
					two (2) programs. Three (3)		
					institutions for 10 programs were		
					accredited for the implementation of		
					PLR activities. Accreditation for the		
					implementation of the PLR		
				1	procedure refers to the following		
				1	qualifications: Reinforcer-concreter,		
				1			
				1	Bricklayer-façade, Operator of		
				1	construction machinery, Carpenter,		
					Fashion tailor and Joiner. Within the		
					"DECIDE" project, activities were		
					carried out on the development and		
					verification of PROAE training in the		
					field of mechanical and electrical		
					engineering. CGC and PLR will be		
					part of the portfolio in the involved		
					schools, which will also be		
					supported through the		
					implementation of professional		
					trainings for employees.

1.1.4: Training of employment counsellors and career planning and information counsellors in the provision of CGC services in line with the adopted standards	2023	NES	In progress	-	With the support of the "Education to Employment - E2E" Program, 32 employees from the NES attended training for CGC standards.	With the support of the "Education to Employment - E2E" Program, in 2022, CGC trainings for NES employees continued.
1.1.5: Preparation of the Draft Occupation Standards Development Methodology	2021	MoLEVSA	Completed	-	With the support of the "Education to Employment - E2E" Program, the Draft Occupation Standards Development Methodology was prepared and presented to the Working Group for the Development of the National Standard Classification of Occupations (NSCO) on June 14, 2021.	
1.1.6: Testing of the Draft Occupation Standards Development Methodology on a selected sample of occupations	2022	MoLEVSA	In progress	-	With the support of the " Education to Employment - E2E " Program, testing of the Draft Occupation Standards Development Methodology was conducted on a selected sample of 10 occupations: locksmith, machines locksmith, universal welder, metalworking operator on numerically controlled machines, welding technician, cook, head chef, waiter, bartender, hotel receptionist. Based on the development of standards for these 10 occupations, the methodology was improved, and additional materials were developed (e.g., Instructions for occupational field research).	Testing of the Draft Methodology will continue additional occupations that will be selected in cooperation with members of the WG for the development of NSCO (MoESTD, Agency for Qualifications, CCIS, SAE).
1.1.7: Establishing the institutional framework for the development of occupation standards	2023	MoLEVSA	In progress	-	This activity is indirectly related to activity 3.1.2 Phase II - improvement of legislation in the field of employment in line with the ex-post analysis findings, which is planned for 2022.	
1.1.8: Development of occupation standards in line with the adopted Occupation Standards Development Methodology	2023	MoLEVSA	In progress	-	Testing of the Draft Occupation Standards Development Methodology is underway, followed by the adoption of the Methodology, which is a prerequisite for the development of occupational standards.	

1.1.9: Improvement of the	2023	MoESTD	In progress	-	In the period from July 2020 to May	This activity is
standards for approval of the					2021, an evaluation study of the	carried out
NFESP status, as well as of					existing system and standards for	continuously.
the standards and					PROAE accreditation was	
procedures for self-evaluation					conducted, as well as a study on the	
and external evaluation of					assessment of the quality of the	
NFESP activities					implementation of short-term	
					professional trainings. The findings	
					were presented to the public at the	
					conference "Educational Policies	
					Based on Data: Pathways to Adult	
					Education" on June 7, 2021. Based	
					on the findings and	
					recommendations of the studies, the	
					Rulebook on the closer conditions in	
					terms of programs, staff, space,	
					equipment and teaching tools for	
					acquiring the status of PROAE was	
					prepared and adopted, which	
					provided for improved standards and	
					the procedure for acquiring the	
					status of PROAE. To facilitate the	
					application of the mentioned	
					rulebook and improve the	
					transparent accreditation procedure	
					for the needs of future PROAE, a	
					Draft guide for acquiring the status	
					of PROAE has been prepared. In	
					addition, a Proposal for a rulebook	
					on self-evaluation and external	
					evaluation of the quality of PROAE's	
					work was prepared. In cooperation	
					with the experts of the " Education to	
					Employment - E2E" Program, a	
					Methodology for the development of	
					non-formal education programs	
					based on qualification standards, as	
					well as instructions for their	
					assessment, was prepared.	

1.1.10: Piloting of the PLR	2021	MoESTD	Completed	100%	During 2021, activities were	The "DECIDE"
procedure	2021	11102015	Completed	10070	undertaken to establish and pilot the	project will, within
Freezense					PLR procedure, as an equal path for	the involved
					acquiring qualifications. With the	schools, develop
					support of the IPA14 Project	PRL in the fields of
					"Development of an integrated	mechanical and
					system of national qualifications in	electrical
					the Republic of Serbia", the	engineering during
					Rulebook on standards and the	2022.
					method of implementing the	2022.
					procedure for recognition of prior	
					learning was adopted ("Official	
					Gazette of the RS", No. 148/20),	
					which established the standards, as	
					well as the method of implementing	
					the PLR procedure. To piloting the	
					PLR procedure, MoESTD, in	
					cooperation with social partners, and	
					above all with the MoLEVSA, NES	
					and IIE, defined that the piloting of	
					the PLR procedure is implemented	
					for qualifications: Baker, Cook,	
					Butcher, Joiner, Fashion tailor,	
					Reinforcer-concreter, Bricklayer-	
					facade, Operator of construction	
					machinery и Carpenter. During the	
					selection of qualifications, the most	
					frequent occupations in which	
					unemployed persons from the NES	
					records as potential candidates for	
					PLR, the existence of qualification	
					standards, as well as data on the	
					position on the labor market of	
					persons with selected qualifications,	
					i.e., data on the employment of	
					persons in occupations relevant for	
					selected qualifications, were	
					considered. Considering that the	
					PLR procedure can be implemented	
					by schools with PROA status, 21	
					secondary vocational schools were	
					selected for piloting the PLR	
					procedure.	
					For the purpose of the selection of	
					the schools, the verification of the	
					school was taken into account for	
					the implementation of the teaching	
					and learning plan and program for a	
					certain area of work, i.e. selected	
					qualification, implementation of	
1					student enrollment in the 2020/2021	
					school year for selected	
					qualifications, compliance of the

2.1.1: Provision of job matching and employment support services	2023	NES	In progress	-	In 2021, according to reported employment needs, the demand for 78,166 new staff was registered in the NES branches, while the need for an additional 29,501 new staff was registered on the NES website, which amounts to a total of 107,667 new staff in demand. Based on the			This activity is carried out continuously.

l critoria cot by the ampleyers a	
criteria set by the employers, a	
preliminary selection was made, and	
159,777 candidates were sent to the	
employers. According to the	
expressed needs, 45,283 people	
were employed and the satisfaction	
of the expressed needs of	
employers, submitted in the	
reporting period, is 57.93%. For	
5,320 new staff, the employers	
requested the service of	
interregional mediation. According to	
the expressed needs for	
interregional mediation, 306 persons	
were employed from the records of	
the NES. As part of its activities,	
SAE cooperated with the NES,	
promoted the ALMP measures and	
participated in informing members	
about the possibilities of using	
employment mediation services	
implemented by the NES.	
The GIZ "Migration for	
Development" program implements	
support in employment in the	
sectors of transport/transportation	
industry, social protection services,	
seasonal employment in agriculture	
and in the waste management	
sector. Beneficiaries are returnees,	
Roma, and other unemployed	
persons, including hard-to-employ	
categories. In 2021, 730	
beneficiaries were covered with	
around 1,200 different measures.	
The GIZ project "Inclusion of Roma	
and other marginalized groups in	
Serbia" included 772 (416 women)	
beneficiaries with 2,304 different	
measures: Functional adult primary	
education, education and training,	
subsidies for employment and self-	
employment, followed by psycho-	
social support (motivation and	
activation).

2.5.3: Development of the policy coordination system within the Youth Guarantee	2022	MoLEVSA	In progress	-	At the Second ministerial meeting, the Declaration of the Western Balkans on ensuring the sustainable integration of young people into the labor market was confirmed. By confirming the Declaration, the Republic of Serbia has accepted to	Youth Guarantee (YG) in the economies of the Western Balkans, and in accordance with the Economic and Investment Plan for the Western Balkans, the dynamics of the activities on the establishment of the YG have been slightly changed. YG introduction/implementation is planned in four phases: (i) development of the YG Implementation Plan, (ii) implementation of preparatory actions, (iii) piloting, and (iv) progressive general introduction. The need to develop a model for reaching NEET youth is recognized within the Draft YG implementation plan.	implementation of preparatory actions for the establishment of the YG will begin within work will also be done on developing a model for reaching NEET youth, in cooperation with CSOs. The established system for coordination, which includes all relevant actors in the process of establishing the YG,
2.5.2: Development of the model for reaching, registering and activating youth in the NEET group who are left out of the system	2022	MoLEVSA	Not started		Based on previous research and received recommendations from employers, SAE has given priority to young people in all ALMP measures in 2021. In this sense, in addition to promoting and informing employers on measures to encourage youth employment, SAE also participated in the work of working groups that dealt with the better position of young people on the labor market. The share of young people included in services/measures to support employment, career development and training, within the GIZ "Migration for Development" Program, amounts to 40-45%. The activities were not started in 2021, but measures taken in 2022 and planned future steps are presented. 					RS, it is necessary, after the adoption of the YG Implementation Plan, to work on the realization of	Plan, in cooperation with relevant actors, the selection of NES branches where

						recognized and necessary preparatory actions, so that piloting could be started in the territory of 2, at most 3 branches of the NES. Within the Draft YG implementation plan, the criteria for the selection of NES branches in the territory where piloting will be carried out are determined.	piloting will be conducted, will be carried out. Through the IPA 2020 program cycle, it is planned to provide technical assistance (TA) to the MoLEVSA and the NES, as well as the allocation of a direct grant (DG) to the NES. One of the planned results, within the framework of technical assistance, refers to the establishment of a framework for piloting YG and implies the creation of a YG implementation plan and the implementation of preparatory activities, after which direct grant funds will be used to start piloting YG in selected NES branches.
2.5.6: Support to the implementation of youth employment promotion projects within the youth policy	2023	MoYS	In progress	100%	Program activities and financing or co-financing of projects aimed at encouraging and stimulating various forms of employment, self-employment and youth entrepreneurship were implemented; developing services and mechanisms that promote the employability and employment of young people through intersectoral cooperation and empowering young people to acquire skills for active, responsible, and efficient career management. In 2021, 13,102 young people were involved through supported projects.		This activity is carried out on an annual basis.

2.6.1: Referral of unemployed PWDs to ALMP measures	2023	NES	In progress	88%	4,592 PWDs are included in ALMP measures. Observed by type of measure: - Active job search training - 1.615 persons (713 women), - Self-efficacy training - 96 persons (57 women), - Workshop for overcoming stress due to job loss - 27 persons (18 women), - Job search club - 252 persons (130 women), - Job fair -474 persons (205 women), - Training for the entrepreneurship development - 279 persons (106 women), - Professional practice - 9 persons (5 women), - Internship for youth with higher education - 6 persons (4 women),			This activity is carried out continuously, on an annual basis.

					- Internship for the unemployed with secondary education - 3 persons (1 woman), - Acquiring practical knowledge - 4 persons (3 women), - Training at employer's request for the unemployed - 5 persons (2 women), - Self – employment subsidies – 117 persons (49 women), - Subsidies for hiring unemployed persons from the hard-to-employ category - 343 persons (178 women), - Public works - 800 persons (385 women), - Wage subsidies for persons with disabilities without work experience - 509 persons (271 women), - Reimbursement of reasonable workplace adaptation costs - 21 persons (7 women), - Reimbursement of salary costs to a person engaged in providing professional support at the workplace - work assistance – 32 persons (10 women).	
2.6.2: Developing the concept of advisory and professional support for employers in defining jobs and tasks, and in adapting working conditions and other aspects, in line with the needs of PWDs.	2023	NES	In progress	-	In the reporting period, activities were initiated on the preparation of manuals/instructions for employers, for the purpose of familiarization and easier understanding of the needs of PWDs, their specificities in relation to the type of disability, as well as other aspects, with the aim of creating jobs and work tasks, with appropriate adjustments. In accordance with previous research that dealt with the position of PWDs in Serbia, SAE produced several different manuals and used it throughout 2021 as a support and guide for employers who employ PWDs. In cooperation with the Forum of Youth with Disabilities (CSO), their activities and support models for the employment of PWDs were supported.	Activities continued on the preparation of manuals/instructions

2.6.3: Ensuring job retention through the development of new activities/measures that envisage monitoring of and support to employers and employees with disabilities for a certain period after starting their job	2023	NES	Not started			
2.6.4: Designing flexible motivation and activation training programmes for PWDs	2023	NES	Not started			
2.6.5: Analysis of the approval procedure for the implementation of professional rehabilitation measures and activities, with a view to its alignment with the regulations in the area of adult education regulating the PROAE status	2023	MoLEVSA MoESTD	In progress	-	The analysis has not been started, but MoESTD, in the period from July 2020 to May 2021, conducted an evaluation study of the existing system and standards for PROAE accreditation.	In the following period, it is planned to carry out a consultative process between MOESTD and MoLEVSA for the purpose of synchronizing the procedures for issuing approvals for the implementation of trainings.
2.6.6: Analysis of the procedure for assessing work ability and the possibility of contracting and retaining employment, with a view to enhancing this procedure	2021→2022	MoLEVSA	Not started		This activity is indirectly related to activity 3.1.2 Phase II - improvement of regulations in the field of employment in accordance with the findings of the Ex-post analysis, which is planned for 2022.
